WATER HEATER

f

for the grandeur
you have created,
a water heater designed
to complement it

CASCADE *iHEAT*
intelligent Water Heater

with an expertise in the Stainless Steel Fabrication Industry for more than 60 years, Cascade was the first to introduce the Stainless Steel Water Heater in India. Ever since its inception, Cascade has been the most envied product in this industry. Today around 60% of all water heaters produced in India are made of stainless steel tank.

What began 30 years ago as a utility gadget is today a symbol of beauty and elegance in the bathroom. Cascade's innovative outlook evolved this dull and drab product into a gadget of style and possession.

CASCADE  **HEAT**
intelligent Water Heater

iPhone style touch sensor buttons to set & control digital display of output temperature.

iHEAT is an Intelligent water heater that chooses the power required to heat the set temperature.

Temperature setting options 30 to 60 Deg C helps deliver constant temperature

Advanced Die-cast Aluminium Heater.

Multi Dimensional mounting options help to mount product in Vertical / Horizontal Right / Horizontal Left / Loft / Floor / Ceiling modes without any alterations.

Power is turned ON when water flow is detected and switches OFF when water flow stops.

No waiting time, Instant hot water supply when heater is turned ON.

Safety features include ELCB, safety protection against dry heating, and over heating. iHEAT carries 2 years warranty.
